

SAYINGS OF THE PROMISED MESSIAH (Peace Be On Him)

"The truth is that Heavenly life starts right from this world. Similarly, a barren and good-for-nothing life led in this world in complete separation from God and His Prophet, represents Hellish life. Paradise to be enjoyed in the Here-after, will be a materialization and perfect realization of the Paradise enjoyed here. This is why the inmates of Paradise in the Here-after, while enjoying the blessings of Paradise, will say, "These are the things we enjoyed before."

The Paradise on earth is attained by practising upon the significance of the Quranic verse, "Verily, he truly prospers who purifies himself."

When man realizes the true significance and essence of worship, he is blessed with a continuous shower of Divine Gifts and Favors, and he spiritually enjoys, here and now, all the blessings that he will enjoy, in future, after death, in a manifest manner, visibly and tangibly. So, bear in mind that you should not feel satiated or rest satisfied until and unless your Heavenly life starts right from this very world, and you enjoy its flavor in this very life, because one who gets nothing here, in this world, and only hopes for a future Paradise, entertains a vain hope.

(Malfuzat, Vol. II, P. 66)

"Of course, it is true that man cannot attain this state without the help of a Holy Soul. This is why Allah sent a Perfect Exemplar in the person of the Holy Prophet, peace and blessings of Allah be on him, and further introduced, for ever, the system of his True Successors It is an established truth that one who is not the son of an agriculturist or is inexperienced in farming, will, while weeding, cut off the useful plants. Likewise, one cannot do spiritual farming rightly, until and unless one receives training under some Perfect Person who has passed all the stages of sowing, watering and weeding, etc. This shows that man needs a Perfect Spiritual Guide. To worship without the help of a Spiritual Guide, is just like an ignorant and inexperienced child's sitting in a farm and cutting off the good and useful plants, and thinking, at the same time, that he is weeding up the noxious growth.

Never for a moment think that true worship will come of itself. The way of Complete Resignation to the Will of God and perfectly turning to Him cannot be attained unless taught by a Prophet."
